"With reference to official memorandum dated 7th February 1930, C. No. 973/1105 regarding Legislative Council question No. 91 from Mr. A. K. Kunhi Moideen, I have the honour to report that for preventing ingress of salt water into the lands mentioned in the resolution, bunds have to be put up connecting Karupadana and Pulloot and Pulloot and Krishnankotta as shown in the sketch. Two openings, one on each branch, have to be provided for the flood water to flow through. They have to be closed annually to prevent the ingress of salt water. For these, approximate cost will be Rs. 7,500. Two locks for boat traffic have also to be provided at a cost of Rs. 15,000. The existing channels in the area to be benefited have to be improved and new channels opened wherever necessary. A lump sum of Rs. 4,000 has to be provided for this. The total cost including a lump sum of Rs. 1,000 for unforeseen expenses will then be Rs 50,000. The annual maintenance charges may be taken as Rs. 500.

If the bund from Karupadana to Pulloot is to be a trafficable road, the top width should be at least 18 feet and the height of roadway has to be
